Any official comments to be sent along with the US position to ISO must be attached using the Comment Template - instructions located within the ballot.	2018-01-31
<a href="#">ISO/NWIP 23316 Tractors and machinery for agriculture and forestry - High Voltage Interface</a> <span style="color: red; font-weight: bold;">Not Answered</span>	Please use the comment box below only for general comments to the committee. Any official comments to be sent along with the US position to ISO must be attached using the Comment Template - instructions located within the ballot.	2018-02-28

e. Review the ballot question and attachments. Follow the directions on the ballot.

Please use the comment box below only for general comments to the committee. Any official comments to be sent along with the US position to ISO must be attached using the Comment Template - instructions located within the ballot.

Comment Template instructions:

1. Download the template, select "save as" to your computer before opening.
2. When entering text in the template, do not adjust column width. It complicates consolidation of comments.
3. As you review the document, identify the section, paragraph, table, and/or page to which you are referring.
4. Comments requesting a change must include text implementing the desired change. General comments such as 'Needs work', or 'Disagree' are typically ignored.
5. Save the comment template as a .doc file and upload the completed comment template as an attachment to the ballot.

Should the US approve the ISO/NWIP 23285 project as presented? 1 of 5
